Annual Report

ABOUT

Aspen Community Foundation

Aspen Community Foundation (ACF) invests in a future where everyone from Aspen to Parachute has equitable opportunities to thrive. Our region is geographically, racially, and culturally diverse and rich in opportunity for the individuals and families who call it home. To ensure this potential is accessible to all, we actively listen and learn about the region's challenges, connect nonprofit, philanthropic, and community leaders advancing solutions, and partner with donors and funders to catalyze community-led change in the areas of early childhood, youth empowerment, and community leadership.

Core Values

 BELONGING

 CURIOSITY

 INNOVATION

 EQUITY

 INTEGRITY

 LEARNING

Our Vision

For the Aspen to Parachute region to be a diverse and culturally rich place where all people have equitable opportunities to thrive.

Our Mission

Inspire philanthropy and ignite collaborative action that leads to community-led change.

TO THE *Community*

We are so thankful for your continued partnership and belief in this work. Together, we are building a region from Aspen to Parachute where everyone has the opportunity to thrive and reach their full potential. Your support, in every form, makes a meaningful and lasting impact.

In 2024, we continued to build momentum and deepen our connections across the Aspen to Parachute region, recognizing how truly interdependent our communities are. A few highlights of the year included stepping in to host the Confluence of Early Childhood Education, serving as fiscal sponsor for the Financial Empowerment Center of the Rockies, supporting the launch of the Youth Empowerment Alliance, and proudly hosting the region's first Teen Giving Circle. Each of these milestones reflects our shared commitment to collaboration and lasting impact.

Yet what we are most proud of is the continued support and engagement of our community. Your involvement fuels everything we do, from inspiring new partnerships and initiatives to helping us respond swiftly when opportunities or challenges arise. It is your generosity, trust, and shared belief in the power of community that allow ACF to connect resources, amplify local leadership, and create meaningful change across the region.

As the seasons change, so too does our region's landscape and the needs within it. At ACF, we continually assess the environment, listen to community voices, and adapt our work to meet emerging challenges. We know that lasting progress happens when we come together, combining expertise, resources, and relationships to fund solutions that strengthen our region.

Looking ahead, we are focusing our efforts on catalyzing community-led change and investing in areas that create long-term opportunity and resilience, including early childhood, youth empowerment, financial stability, and local leadership. Together, these efforts are shaping a stronger and more connected future for everyone who calls this place home.

As we move forward, our role as a community foundation remains clear: to listen deeply, build partnerships, and help advance solutions rooted in local knowledge and collaboration. Thank you for walking alongside us. Together, we are creating a thriving, equitable, and resilient future for our interconnected region.

With gratitude,

WRM COAD

ACF founded the West Mountain Regional Community Organizations Active in Disaster (COAD) in 2022 after a series of convenings of more than 40 nonprofit organizations, government agencies and emergency managers explored the role of community-based organizations during disaster response. Since its founding, COAD has helped community organizations respond more effectively to disasters in Pitkin, Eagle and Garfield counties.

The COAD brings together nonprofit, faith-based, voluntary and government organizations to foster a more effective response to disaster-related needs during “blue sky” conditions. The goal is to organize and deploy community resources efficiently, thus enhancing the community’s ability to mitigate, prevent, prepare for, respond to and recover from disasters.

As an umbrella organization, COAD connects organizations that provide aid to emergency responders, government agencies and community members in times of disasters. Each organization maintains its identity and independence, yet works closely with others to improve service, maximize resources and eliminate unnecessary duplication of efforts. **COAD is led by a steering committee that includes representatives from:**

Arc of the Central Mountains

American Red Cross

Aspen Community Foundation

Aspen Institute, Hurst Community Initiative

Aspen Public Radio

Aspen Valley Hospital & Foundation

Eagle County Human Services

Eagle Valley Community Foundation

Food Bank of the Rockies

Garfield County Human Services

High Country Volunteers

Pitkin County Human Services

Salvation Army

The Vail Church

West Mountain Regional Health Alliance

The work of the COAD includes:

- Recruiting, training and deploying volunteers
- Receiving and distributing donations such as food, water and supplies
- Accepting and disbursing monetary donations
- Pushing out updated information during a disaster event and educating the community about disaster preparedness
- Coordinating long-term recovery efforts

In 2024, the COAD focused on recruiting and training volunteers, strengthening relationships with county emergency managers, and establishing donation hubs throughout the three counties.

YOUTH IN NATURE

The 2024-2025 school year was the third season of the Youth in Nature (YIN) program—an ACF community-led initiative developed in collaboration with nonprofit partners and funded by the Jonathan D + Mark C. Lewis Foundation (JDMCLF).

Partners include Roaring Fork Outdoor Volunteers (RFOV/lead partner), Aspen Center for Environmental Sciences, Farm Collaborative, Aspen Valley Land Trust, Buddy Program, and Aspen One.

YIN is a year-long empowerment and education program that motivates high school students from across the Parachute to Aspen region to get outside. It combines elements of nature, mental and physical health, stewardship, and community building. The program connects participants with new people, places, and outdoor professionals. Every year, between June and May, twelve students participate in YIN's orientation, wilderness hut trip and nine thematic weekend sessions. School year sessions feature stewardship projects, outdoor recreation and skills development and introduce students to the diverse work of nonprofit partners and the inspiring landscapes of the Roaring Fork and Colorado River Valleys.

Designed to introduce outdoor career paths and strengthen confidence, students are encouraged to have new experiences to step outside their comfort zone. Students are invited to continue their involvement with partners via internships, volunteerism and participation in their core programs. The upcoming program season will offer expanded opportunities for YIN graduates to return and continue their involvement through alumni gatherings and stewardship projects.

Since its inception in 2022 with support from JDMCLF grants, YIN is offered at no cost to students and provides transportation, gear and an award they can use for educational expenses. The 2024-25 season marked the conclusion of Youth in Nature's three-year pilot phase. The program fully transitions to YIN's lead partner in 2025 and will be integrated into RFOV's core program offerings. YIN's fourth year launches in June 2025 with a new cohort of high school students from across the region.

I am so thankful for the opportunity to be in the program!

Thank you so much for pushing me out of my comfort zone and helping me grow as a person with nature and the program itself. You also brought me close to some of my now very close friends. Thank you so much and I love you guys!

2024-2025 Youth In Nature Participant

It is hard to overstate the importance of the hut trip for the success of the program.

By removing pressures and distractions, we can bring together students from across the region and quickly build a community that is open, accepting, and positive. The setting creates a unique space to learn about our environment, and the shared experience sets a solid foundation for the rest of the year.

[Roaring Fork Outdoor Volunteers](#)

The mission of the Jonathan D + Mark C. Lewis Foundation is to empower the next generation. They work to remove barriers and bridge the youth empowerment gap to ensure that young people thrive and become confident, productive, contributing adults. Through strategic partnerships and investments, they help create optimal environments that allow youth to explore their interests and identify sources of inspiration that can influence how they think about and plan for their futures.

"We want youth to see themselves and their futures in ways that may have been previously unimaginable. Experiential learning experiences like Youth in Nature allow students to expand their ideas about what might be possible not only for themselves but for their communities," says JDMCLF Founding Board Member Mark C. Lewis.

YOUTH IN NATURE 2025-2026 SEASON

The 2025 season began in June 2025 and applications for the 2026-27 program will be accepted in January 2026

Given the option of holding a donor fund between ACF and a strictly financial institution, choosing ACF was, for us, the obvious preference. Why deal with a faceless organization, when there is an option to go 'where everybody knows your name?'"

ULTIMATE SKI PASS

Aspen Skiing Company (ASC) is on a mission to blend nature, culture and recreation. Beyond providing world-class operations across the

Rocky Mountains, ASC is committed to fighting climate change and fostering vibrant communities. Rooted in this commitment, ASC founded Aspen Community Foundation in 1980 to create a thriving, sustainable region where everyone has access to resources and opportunities to succeed.

Since then, ASC and Aspen Community Foundation have been collaborating to increase the well-being of the Roaring Fork Valley communities, focusing primarily on housing, healthcare and child care. The impacts of climate change, equitable access to affordable housing, healthcare and resources, can heavily affect the quality of life for communities and diminish the success

of future generations. ASC and Aspen Community Foundation aim to tackle these challenges head-on, ensuring the sustainability of our region.

\$600,000

raised in 2024 to support organizations that provide crucial services to those in greatest need.

In 2012, Aspen Community Foundation launched the Ultimate Ski Pass as a collaborative effort with ASC. The \$25,000 pass directs funding to local nonprofits advancing childcare, healthcare, mental health, housing, environmental issues and education. In 2024, the Ultimate Ski Pass raised \$600,000, supporting organizations that provide crucial services to those with the greatest need.

GIVING NETWORK

A giving circle practicing high-impact philanthropy

Mission

The Giving Network brings together philanthropists from across the Aspen to Parachute region to learn and invest in solutions that strengthen our communities. Through collaborative learning and collective giving, members address pressing local issues, identify opportunities for impact and pool resources to fund meaningful, lasting change.

Members meet several times throughout the year to hear from experts and leaders working on the region's most pressing issues. Then, they review data, discuss the challenges and seek to identify promising solutions through peer conversations and collaborative learning.

History

Founded in 2016 with the support of Laura and Gary Lauder, the Giving Network has been at the forefront of collaborative giving in the Aspen region. From 2016 through 2024, the Giving Network has supported the Cradle to Career Initiative, advancing youth success in kindergarten readiness, social-emotional well-being, mental health and postsecondary achievement.

Hosted and supported by the Aspen Community Foundation, the Giving Network has granted over \$3.1 million since its inception, investing in the success and future of our community.

With 100 active members, the Giving Network continues to grow and provide a meaningful space for philanthropists to learn together, align resources and drive community change.

In 2025, the Giving Network will continue to listen and learn, welcoming grant proposals that advance new or enhanced programs, services, or collaborations addressing the region's most pressing and emerging community needs.

DONOR HIGHLIGHT

Even full-time residents don't always understand the scope of the challenges in our Valley,

and one of the biggest advantages of forging a new relationship with ACF is gaining a broader understanding of our home."
